Why SMART Glass?

Smart Glass Industries Limited incorporated and based in Nairobi, Kenya, specializes in architectural and design glass. At Smart Glass Industries we pride ourselves in the level of quality of our products as well as creating unimaginable designs on glass.

With our family of glass products, we seek to contribute to customers' success and become an important part of people's lives with our high-quality products and creative design work on glass. We ensure to work closely with architects and designers to extend the boundaries of design and create new opportunities. For building culture – in terms of design and space, indoors and outdoors, aesthetics and functionality – sustainable and custom-tailored, we are second to none.

That is what makes Smart Glass Industries a qualified partner for architects and interior designers. Our product family (**Safety, Vetro, Art, Captcha, Organika, Fabrika** and **Switchable**) varies from safety to decorative art glass, ensuring our finished product quality can compare to none in the market combined with short lead and delivery times.

All our products are exclusively bespoke and designed according to individual project requirements – whether it's a single frame less shower enclosure, a spiral of glass balustrade linking two floors, a row of coloured glass toilet cubicles or folding glass bath screens that set the style in a housing development. Smart Glass can also provide a wide range of decorative treatment to architectural glass making it safe while meeting your individual style and design requirements.

Option to have your own design onto/in the glass.

SMART SAFETY Glass

We make glass an easy option when it comes to safety. We will help you choose a product that will suit your safety needs.

SMART safety glass meets society's need for greater security, noise reduction, safety and maintenance. It helps you do more with less, creating innovative new spaces, while providing greater protection be it bulletproof glass or anti-bandit glass, or an elegant safe frame less shower cubicle.

ANTI-BANDIT GLASS

SMART VETRO Glass

SMART VETRO colored glass is a contemporary colored glass that can be used for a variety of applications be it controlling light intensity or for design purposes. It provides a high-quality consistent colored glass in a variety of shades and provides years of color durability, even when exposed to direct sunlight.

It allows for a rich palette of color permutations, which range from subtle transparent and translucent colors to opaque that can be used for a wide range of applications.

Stylish replacement for Tiles

an Architects' Canvas

With SMART VETRO colored glass, you are guaranteed a strong structure with durable colors that won't fade over time.

SMART ART Glass

We can produce various etched and sandblasted designs on glass. Our highly skilled team can produce various artistic finishes and colors.

SMART CAPTCHA Glass

As a unique medium for image display, as a wall cladding or a partition wall or as a facing for a splash back. CAPTCHA guarantees image reproduction that is sharp in every detail, bright and brilliant.

SMART ORGANIKA Glass

The glass encloses leaves, thin branches, beans, or any product in any design as specified by the customer – the possibilities are almost limitless!

SMART FABRIKA Glass

unique Fabrics in glass

Any fabric design of your choice!

SMART SWITCHABLE Glass

Do you **love** the look of a clear glass and enjoy the openness that clear glass offers for partitions in offices, bathrooms, showers and dressing rooms, yet also prefer to have cover for **privacy** when needed?

That's where **SMART SWITCHABLE** glass comes in.

This technology switches the glass from clear to opaque in an instant so one cannot see through it.

Privacy at the flick of a switch

We also offer:

We also offer glass drilling, straight and design sand-blasting, glass cutting and glass polishing services. Please call us on **0702 489 000** or email us on info@smartglassltd.com for more information.
